WHAT IS IT?

Airbrush The Magazine 100 Artists Special#2 is to celebrate the art of airbrushing, custom painting. To publish the artwork of 100 different artists from all over the world of all different skill levels from professionals to hobbyists.

WHY?

To bring some positives vibes to the airbrush, custom painting community. To show we can celebrate each other's success and growth as artists. Expose the world to the great artwork that can be created using an airbrush, striping brush, spray gun. Hopefully, by doing so we bring new people into our art forms.

WHAT IT IS NOT!

Airbrush The Magazine is in no way trying to rate one artist as being better than another artist. It is not intended to be a list of who the magazine believes to be the best or top 100 artists. That is way above our pay grade and we leave that up to you to judge. It is not a contest either it is as we described above.

Trulers

Trulers Save Time

Trulers are temporary, self-adhesive rulers that are used in custom painting as well as metal fabrication. They help speed up accuracy & efficiency for tape lines & symmetry and they are also designed to be drilled right through as a template that can conform to curved surfaces.

We would like to thank all of the Trulers customers that stepped up to make our booth fantastic this year! These were truly extraordinary builds and we appreciate what the painters as well as the owner/builders did to provide the ultimate eye candy which brought the crowds to us. We hope to work with you all again and there may be a spot or 2 for our future customers next year!
